### Career Objective

To apply my 4 years of experience as a Service Advisor in the automobile industry and 1 year as an NDT Engineer to a challenging mechanical engineering role. With ASNT Level II certifications in PT, MT, UT, VT, RT, and RTFI, combined with expertise in HVAC Designing and Drafting and a certificate in QA/QC Oil Field Technology, I am well-equipped to deliver high-quality solutions. My diploma in Computer Applications further enhances my technical proficiency. I aim to contribute to a forward-thinking organization by leveraging my diverse skill set to drive operational excellence, ensure adherence to industry standards and advance innovative engineering practices. I am committed to continuous professional development and fostering effective teamwork while achieving organizational goals and contributing to long-term success.

### Skills

- Automobile Systems Knowledge
- Diagnostic Skills
- NDT Techniques
- Repair and Maintenance
- Technical Documentation
- Quality Assurance
- Project Management
- Customer Service
- Communication
- Problem Solving
- Attention to Detail
- Team Collaboration

### Work Experience

#### Service Advisor

Jun 2018 - Oct 2022

Megha Motors, Kerala, India

- Conduct test drives with customers to assess vehicle performance and identify concerns.
- Inquire about unusual sounds or performance issues during customer consultations.
- Gather and document customer complaints for accurate diagnosis.
- Ensure adherence to routine check-ups as per manufacturer recommendations.
- Perform or coordinate key system checks, including brakes, oil levels, lights, engine sounds and exhaust smoke.
- Brief customers on service policies, processes and procedures.
- Provide detailed cost breakdowns for spare parts and labor charges.

#### Contract NDT Engineer

May 2017 - April 2018

Pallakki NDT Excellence Center, Bangalore, Karnataka, India

- Perform NDT methods like UT, MT, RT and PT for material inspections.
- Analyze results and create inspection reports.
- Ensure compliance with industry standards and safety protocols.
- Coordinate and schedule NDT inspections with project teams.
- Calibrate and maintain NDT equipment.
- Assist in developing advanced NDT techniques.
- Provide technical support to NDT technicians.
- Participate in quality control processes.
- Maintain documentation of tests and results.
- Ensure client specifications are met during testing.

## Education

2022	Diploma in Computer Applications (DCA) KELTRON, Thiruvananthapuram, Kerala, India
2016	Certificate Course in HVAC Designing and Drafting Certificate Course in QA/QC Oil Field Technology STED Council, India
2015	B.Tech in Mechanical Engineering Jyothi Engineering College, Thrissur, Kerala, India

---

## Certifications

- ASNT Level II in Penetrant Testing (PT), Magnetic Particle Testing (MT), Ultrasonic Testing (UT), Visual Testing (VT), Radiographic Testing (RT) and Radiographic Film Interpretation (RTFI)
- HVAC Designing and Drafting
- QA/QC Oil Field Technology

---

## Software Skills

- Ms Office (Word, Excel, PowerPoint, Access)
- Familiar with all Windows/Mac versions
- Proficient in internet usage and basic computer applications

---

## Languages

- English
- Malayalam
- Tamil
- Kannada

---

## Personal Details

- Passport Number : P4162573
- Passport Expiry : 15/12/2026
- Gender : Male
- Nationality : Indian
- Marital Status : Single
- Date of Birth : 20/7/1992

UAE ADDRESS : ROOM 210, AL ANSARI BUILDING, HOR AL ANZ, DEIRA, DUBAI

---

PLACE : DUBAI
